

List of credits on the specialty “Special metallurgy”

BACHELOR	
NAME OF SUBJECTS	CREDITS
Thermophysics of special metallurgy processes	N/D
Equipment and technology of special metallurgy	N/D
Corrosion and metal protection	N/D
Special metallurgy in mechanical engineering	N/D
Scientific Principles of Composite Materials Forming	N/D
Computer simulation technology of physical processes	N/D
Theory and Technology of Powder and Composite Materials Forming and Sintering	N/D
Heat Treatment of Metals and Alloys	N/D
