

List of credits on the specialty “Electrical Power Engineering, Electrical Engineering and Electromechanics”

MASTER		
NAME OF SUBJECTS	SEMESTER	CREDITS
Energy Markets	Autumn	5
Energy Management Systems	Autumn	7
Distributed Energy Sources	Autumn	5
Automatic Control Sources for Electrical Engineering	Autumn	5
Smart technologies for integrated systems of power supply	Autumn	5
Information and Communication Technologies in Power Supply Systems	Autumn	4.5
Energy Measurement, Metering and Management Systems	Autumn	4
Fundamentals of Sustainable Development	Autumn	2
Transport of oil	Autumn	5
Human Safety and Civil Protection	Autumn	3
English for Specific Purpose	Autumn	3
Managerial Economics for Energy Sector	Spring	5
Power electronics in power supply systems	Spring	5
Information and Communication Technologies in Energy Management Systems	Spring	4
Project management in energy systems	Spring	3
Resource Efficient and Cleaner Production	Spring	2.5
Occupational Safety and Civil Protection	Spring	3
English for Specific Purpose	Spring	2
